Stark Bro's F. O. B. Nurseries

Jan. 1, 1920

PRICE LIST

"A Stark Tree is Cheap at \$5.00

compared to those other trees as a gift!" declares Mr. Sutton of Houser & Sutton, owners of 7,000 Stark Tree orchard near Newton, Ill. Look at the photos at right and see why! Photo No. 1 shows Stark Delicious Tree (Stark Tree) 1 year and 3 months from planting. It was planted exactly same time as "cheap" tree shown in Photo No. 2. Note appalling difference. Photo No. 3 shows a Stark Tree planted only 3 months ago! Even this 3 months Stark Tree is bigger than the 15 months cheap tree.

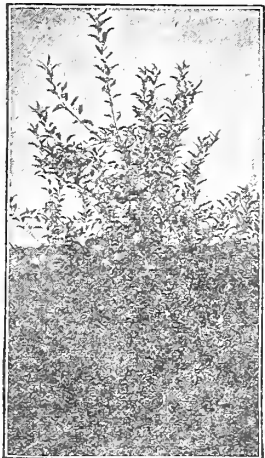

Low Price Trees Poor "Bargains"

"The former manager of the orchard I now have charge of bought and planted some trees—cheap in price, cheaper in quality. They are NOW FIVE YEARS old. They are stunted, crooked—have required extra cultivation and care. It is almost impossible to make them grow. 'STARK TREES PLANTED THREE YEARS AGO ARE MUCH LARGER, finer and more shapely than the five-year-old cheap trees.' 'Anyone having any doubt about what cheap trees will NOT do and what Stark Bro's Trees WILL do should come to my orchard.' Benj. Douglass, owner-manager Hickory Hill Orchard, Trevlax, Ind., and former State Entomologist.

Thrifty Trees That Bear Young The Only Safe Investment

Look at this fine well grown big rooted, Stark Tree. This is one of our trees that we have ready for shipment this year. However, the demand is breaking all records this year — so ORDER EARLY.

Photo below shows a Young Golden Delicious tree only 14 months after planting. See how it has grown! Photo at right shows Golden Delicious only 2 years in ground at Univ. Ark. orchard—bearing 14 big Golden Delicious.

Golden Delicious Tree 14 Months in the Ground

2-Year-Old Golden Delicious Bearing 14 Big Apples

The first cost of trees is little compared to the land they occupy and the labor of caring for them until they come into bearing. Don't let the time in front of your eye hide the dollar in the distance. Don't for the sake of getting your trees a little cheaper GAMBLE with your land and your years of labor. Remember that the shrewdest, most successful fruit growers don't take chances. They won't take anything other than genuine Stark Trees. They KNOW—by experience—that OUR TREES ARE GROWN TO THRIVE, TO BEAR YOUNG AND TO YIELD BIG CROPS OF BEST-PRICE FRUIT YEAR AFTER YEAR AFTER YEAR. The big Seabrook Orchards of N. J. sent their manager to visit leading nurseries this year. After he looked at our trees in the nursery rows this year he said: "There's nothing to compare with them anywhere else." He placed his order for 20,000 Stark trees, including large block of Stark Delicious.

You Should Beautify Your Home Grounds This Season, Too

Don't be content with just ordering fruit trees for growing fruit for market—profits or for home consumption. Make up your mind that you are going to make the grounds around your home smile cheerily with a planting of Stark shrubbery, hedges and trees. Even a moderate planting will multiply the beauty and charm of any city, suburban or country home and increase its value. Look through the catalog and send in an order for ornamental planting TODAY.

Trees are Very Scarce—Don't Delay Ordering

Please heed this warning and save yourself disappointment. Our Fall sales were 300 percent greater than last year. Tardy buyers will fail to get trees this year. And it would be a pity for you not to get some of this year's wonderful stock—especially the 4 to 7 foot trees. They are probably the finest we have ever offered. The 4 to 7 foot is the top size—see photo on left. Grown under ideal soil conditions in crop—rotated soil that is ideal for maximum growth both of root and top. Get some of these fine trees by all means—but GET YOUR ORDER IN QUICK.

We Will Give You Home Beautifying Plans and Advice FREE

See catalog for details of this free service that will enable you to secure the best and most harmonious setting of shrubbery, hedges and trees. Send us a rough sketch of your home and grounds around it and we will aid you gladly.

Look at These Photos See What a Little Money Will Do

Just look at the reproduced photos opposite. Note how a little money multiplied many times the attractiveness and desirability of this home. Read the detailed descriptions of our various varieties of Ornamental Shrubs, Plants, Vines, etc., on the foregoing pages. Then, make up your mind that you are going to beautify your home grounds this year, too.

Note change that a Stark Bro's planting made in one year in the "home-like air" of this pretty suburban home. Isn't it worth MUCH more than the \$22 it cost?

STARK TREES the lusty trees that and Stark "know" we enabled us to for this year's in our rs' or-

Stark Bro's, at Louisiana, Mo., Since 1816

F. O. B. Nursery Cash Price List—For Spring, 1920

These Prices in Effect Jan. 1, 1920, and this Price List supersedes any other printed list previously issued.

JAN. 1, 1920

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

JAN. 1, 1920

TERMS All cash with order—no exceptions. Customer pays transportation charges.

Low Freight Rates Louisiana, Mo., is located on through main line railroads, North, South, East and West, and is on St. Louis low freight basis. We can make surprisingly quick shipment to all parts of the United States.

Small Orders Because of the increased cost of land, labor, implements, packing material, etc., there is no profit on orders for less than \$5.00, and we cannot accept orders for smaller amounts.

Non-Warranty In the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree on proper proof of such untruthness to name to replace that portion of the order proven untrue to name, or to refund the purchase price thereof. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, growth, productiveness or any other matter.—Stark Bro's Nurseries & Orchards Co.

We do not replace stock that fails to live. Possible neglect of planter and unavoidable climatic conditions prevent our guaranteeing our trees and plants to live. We deliver the stock to transportation company in good condition; our responsibility ends there. If the stock is damaged in transit, claim for damages should be promptly made on transportation company.

Non-delivery of stock is excused in case of fire, frost, floods, drouth, strikes, shortage of nursery stock or other causes beyond seller's control.

Changes in Orders It may be necessary to make some changes in size and variety of trees and plants ordered, unless customer definitely states that it will not be permitted. Changes, if made, will be under the direction of our expert trained men and equal or superior sorts will be sent. We have the largest and most complete stock of nursery trees in America, but because of the unprecedented shortage and the greatest demand we have ever experienced, many sorts will doubtless sell out early.

Important If above is not agreed to customers may be disappointed, as we may be forced to hold up shipment of all or part of their orders until another season.

Parcel Post Orders We can ship 2 to 3 ft. size trees by parcel post. Add five (5) cents to the 2 to 5 ft. price and this stock will come to you by mail postpaid. We can also ship grapevines, berry plants and small size Ornamentals in the same manner—prices are 5 cents more than listed. However, we prefer express and freight shipments, but make this offer for those far removed from railroads.

Special Notice When buying apple, pear, peach, quince, cherry, crab apple, plum, apricot, dwarf pear, dwarf apple, shade trees, shrubs, and roses, the following explanation of Price List should be read carefully:

Each Rate—In buying fruit trees, less than 30 trees go at "Each" rate.

100 Rate—Over 30 trees, not less than 10 of any one variety, go at the "100" rate.

1000 Rate—300 trees or over go at the "1000" rate.

10 Rate—This applies only to Ornamentals, Shade Trees, Roses, etc.; 10 or more at "10" rate, but if as many as 300 the "1000" rate governs.

Most Desirable Varieties are printed in the heavier or black face type.

Trees Are Very Scarce.

HOW TO ORDER

Send in Your Order Quick.

Write Plainly On the order blank enclosed, fill in your name, address, and the place to which you want the stock shipped; use pen and ink whenever possible. State specifically the number of each variety or kind wanted, and mark the ages and sizes of each. Carry out the prices, extend the totals correctly, and attach check, draft or money order.

Upon receipt of your order we will promptly acknowledge it, giving you the number under which your order is entered on our books.

When writing us regarding your order, always give your order number. Regardless of how often you may have written us, please be sure to sign your full name and give your address, and if replying to any letter from us, give the date of same.

Inspection The Certificate of our State Entomologist is attached to all shipments. No diseased or infested trees are permitted in our nurseries.

Order Now As far as possible, orders are handled here as they are received, especially selected and reserved in customer's name for shipment at the proper time. We always advise prompt, early orders—better service for our customers, better for us. This is more important than ever this year, because of tree shortage.

Jan. 1, 1920, Prices—All Others Cancelled
